# INSPIRATIONS

*Valentine's Day*

by Leblanc illuminations

# Who are we ?

Leblanc Illuminations is the pioneer company in the lighting market all around the world over more than 65 years.

Our lighting is a commitment to human emotion, to the values we share with our customers, our employees, the public in general... We are specialists, innovators, pioneers and passionate. We create lighting to bring out the best in your living spaces.

It is here that we share our passion: to create connections, moments of sharing, thanks to light.

We are *creator of lasting emotions*

# The most beautiful emotions are the ones that we share with others.

We believe in the unifying power of emotions, the universal language that connects different sensations, the communicative vibration that connects us to each other, with this positive energy circulating between us.

Beautiful decorations all year long, with and without light.

Leblanc illuminations creates e-deco, a range of durable and colourful daytime decorations suitable for all your events. We print decorations in Greenfib®, Everstar® and Rainbow, bio-sourced, recycled and recyclable materials.

Available in 13 colours, they add dynamism and colour to your festive decorations, especially in broad daylight or indoors. Some e-deco are non-glowing, so they do not use electricity. The material can be shredded to make new e-deco for other events.

*Valentine's day*

is the celebration of lovers, the perfect opportunity to say "*I love you*"

Couples are often very sensitive to small gestures and *words of love* on the 14th of February.

Here are our suggestions to create a *romantic* atmosphere.

# Create a poetic moment for Valentine's Day

Celebrate Valentine's Day by creating a  
unique atmosphere at any location !
