LEBLANC ILLUMINATIONS,

SUSTAINABLE EMOTION CREATOR THROUGH LIGHT

Our illuminations spark human emotions and demonstrate values shared with our customers, employees and the wider audience.

We believe in the unifying power of emotion, in the universal language that unites the most diverse audience and in the shared experience that connects us to each other.

The most powerful emotions, are the ones which we share.

Did you know?

We calculate the energy consumption of the decorations used in your scheme.

We provide the necessary graphs and informative materials to help you communicate with the public about the energy usage of your display.

ALWAYS THERE FOR YOU AND YOUR PROJECT

We are by your side at every step of the project,

from the idea's conception to its implementation and successful realisation. You will never be alone!

When you trust us, the whole company is committed to your project.

In addition to our catalogue products, we offer our customers **customised products.** Every day, our teams of designers put their creativity at the service of your project and your specificity, so that your installation is in adequacy with your identity.

You are unique, so are our illuminations.

CELEBRATE THE OLYMPIC SPIRIT IN 2024

with e-deco by Leblanc illuminations

There's going to be some sport!

The 2024 Olympic Games are the perfect time to showcase your support for this exciting global event, and enhance the appeal of your place.
Would you like to support your sports associations? Are you wondering how to decorate your streets for the 2024 Olympics? Whether you're a Games host city or not, we've got everything you need to decorate your place and create a memorable atmosphere.

Photo © City of Le Mans

Our e-deco torch is being passed from hand to hand among the schoolchildren of Le Mans. This emblematic flame will run through and illuminate **all the city's schools** until the opening of the world competition, marking the municipality's enthusiastic participation in the celebrations for the major event of 2024. It's an inspiring initiative by Le Mans Ville et Métropole to promote the Olympic spirit among young people and bring them together in a festive way.

BOOSTING THE HEART OF CITIES

Decorations bring happiness to people and boost economic activity.
At Leblanc illuminations, we innovate to create magic for events throughout the year.

twinkly™ PRO

Programmable displays and colour-changing lights: animated garlands that consume less electricity.

These new generation LEDs are **a major innovation in the lighting industry**. They can be remote-controlled individually by a smartphone. Thanks to its **embedded Wi-Fi,** users access to an **infinite number of fully customisable effects.**

Leblanc illuminations is a distributor of the Twinkly Pro controllable lights in Europe, USA and around the world.

COMMUNITY & BEST PRACTICE

We are passionate about our work and aim to develop solid and responsible relationships with our partners.
Our good customer service and after sales care set us apart.

Taking care of our teams, our clients and future generations

Leblanc illuminations is committed to operating in a socially responsible way. In 2020, we formalised our commitments and expectations in a Responsible Purchasing Charter, sand global supply chain.

Commitment charters

We have developed a CSR Commitment Charter intended for our employees and stakeholders and a Responsible Purchasing Charter for our complete supply chain.

Encouraging
Irecycling and local purchasing

Annual client
satisfaction surveys

Employees

Identifying development opportunities for our employees.

Defending
the diversity of our teams

100% of our employees have signed our charter for the promotion of equal opportunities

THE LEADER OF RESPONSIBLE ILLUMINATION

Leblanc illuminations is committed to a continuous and voluntary process of reducing its environmental footprint.

We do not follow trends, we create them!
We did not wait for the recent social and environmental awareness to commit ourselves to being environmentally conscious, it has been with us for over 65 years.

Today's decorations are the raw material for tomorrow's decorations

We innovate to reduce, reuse and recycle our materials: our structures are made from Hydo-Reduxa low-carbon aluminium, which is infinitely recyclable. Our 3D robots print motif details in bio-based and/or recycled materials, which are recycled for new prints at the end of their life. We recycle and recover 97% of our designs.

ISO 9001 & CSR 26000

We are more committed than ever to improving our products, reducing our environmental impact and delivering high standards of customer satisfaction.

This is an ongoing commitment, indpendently recognised by **ISO 9001 certification since 2014,** and confirmed by the **CSR 26000 label achieved in 2021.**
In 2022, Leblanc illuminations joined the Coq Vert community, initiated by BPI France, ADEME and the Ministry of Ecological Transition, which brings together companies that place environmental issues as a priority in their strategy.

Leblanc illuminations is the only European manufacturer that is

- **ISO 9001 certified**
- **CSR 26000 certified**
- **member of the Coq Vert community**
- **which manufactures in Europe without subcontracting**

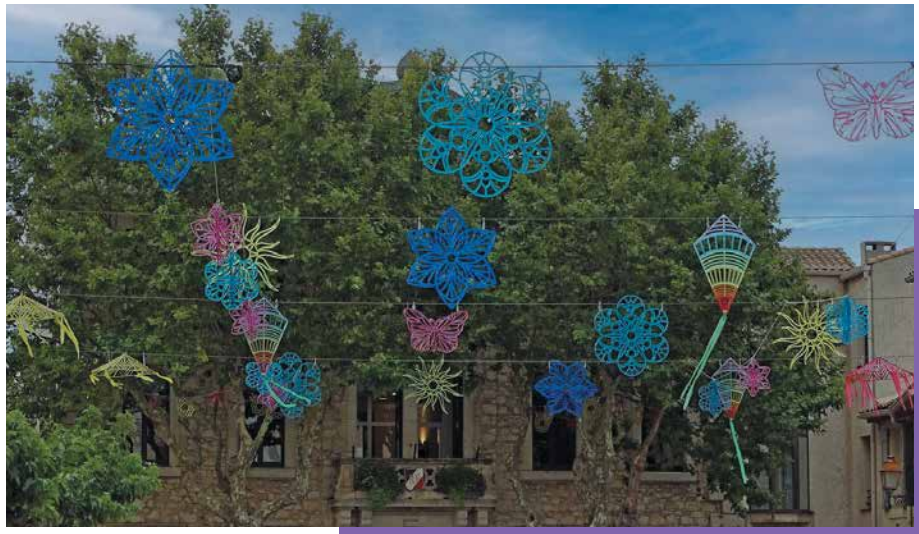

THROUGH THE SEASONS

3D PRINTING, A GREEN REVOLUTION

The promise of decorations tailor-made to strict and committed specifications: materials that are resistant without being brittle, respect the environment and have efficient recycling programmes to give them new life

e-deco by Leblanc illuminations

Today's decorations are the raw material for tomorrow's decorations.

Leblanc illuminations has invested in a fleet of 3D printing robots and launched **e-deco,** a range of **durable daytime details and decorations** that can be used **with or without lights.**

With its **4 materials and 13 dynamic and festive colours,** e-deco offers unlimited creativity in the design.

Our printed products are **manufactured in our own workshop.** The raw materials are **biosourced, recycled and recyclable.** At the end of their life, they are crushed to form new granules which can be **used to manufacture new decorations.**

For the majority of our range, luminous decorations can be placed horizontally and vertically. They offer a wide range of sizes, colours and animations. It is possible to combine our different collections with each other.

All our decorations are made with 100% LED, delivred with power cables & fastening kits, without bulbs and satilights. All our floorstanding 3D decorations are cabled in SELV, except for non-suitable products.

Luminous Decorations

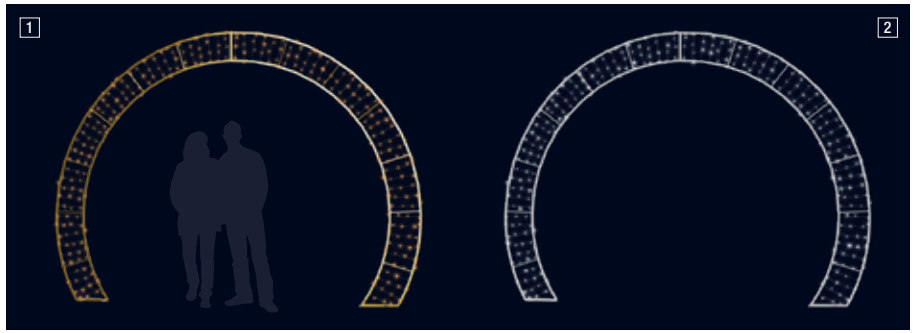

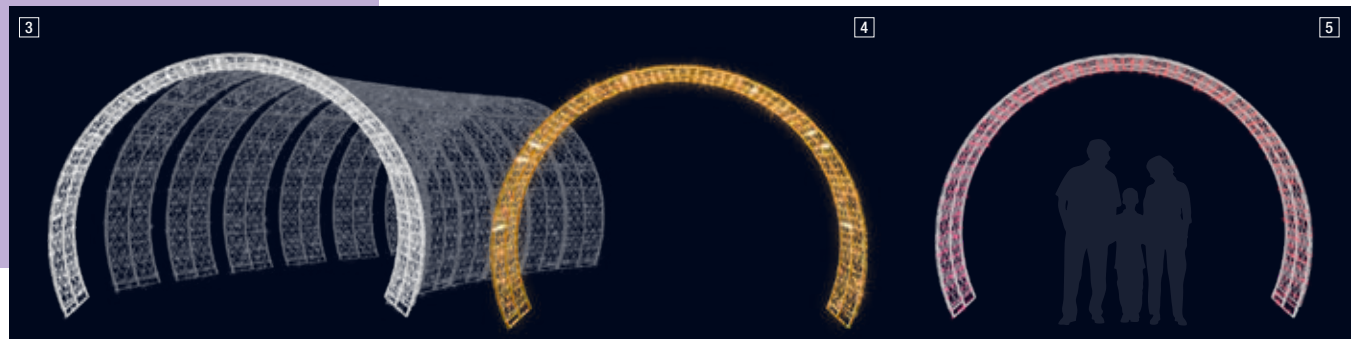

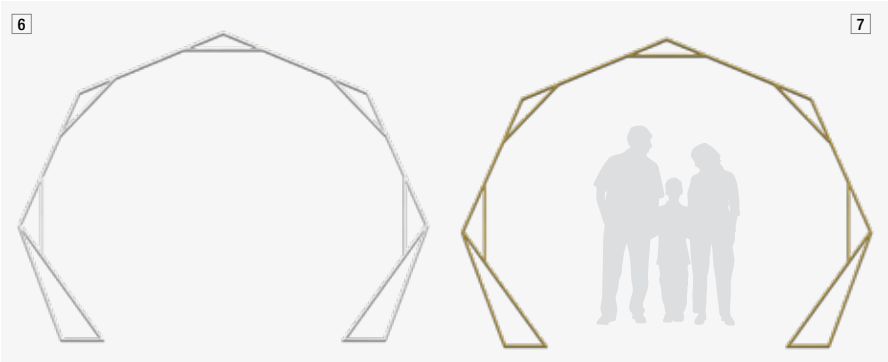

CUSTOMISABLE ARCHES

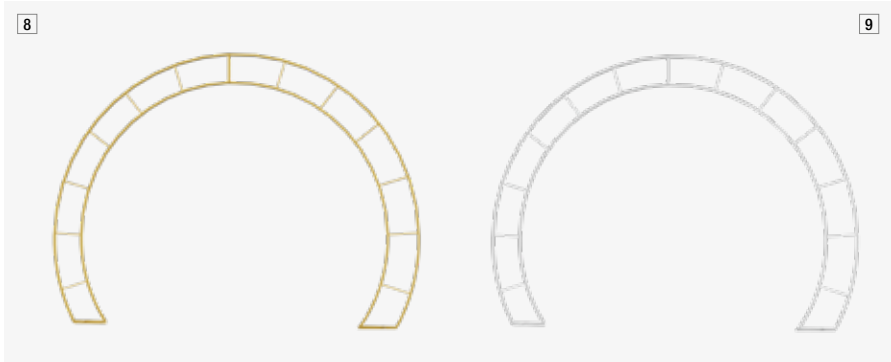

Throughout the year, personalise your structure with colourful e-deco kits to suit your events.
Luminous or non-luminous, indoors or outdoors, decorate high-traffic areas and entrances to your venues. Your visitors will love capturing the moment with a selfie or group photo.

Lighting Solutions

Sound & lighting

Thanks to our project managers specialising in creating sound light shows, your installations (Christmas trees, ceilings, etc.) come to life for the duration of an event.

Sound and light shows tell a story, whether imaginary or heritage. Depending on the location and the atmosphere you wish to create, we can propose solutions tailored to your needs. A light show can be installed in a place steeped in history: a historic building, a facade, an avenue...

In this way, you can enhance the value of your heritage and make it possible to see what no one else has noticed!

Spectators are captivated, and it's up to you to fill them with even more wonder: light, sound, fragrance... Programmed scenes or sensor-triggered, anything is possible to accompany your story...accompany your story...

The microLED

Next generation microLED, 3 times brighter.

All our products are made with 100% LED.
For all glittering microLED products, every fourth LED is animated. AC/DC: alternating / direct current.

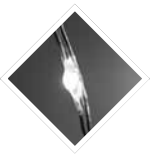

We advise you to connect microLED products **in parallel rather than in series,** to maximize their extendability. By default, it is the serial value that is noted in the tables.

As a new generation of linear wall washer, the BAR series exist in 3 versions from 9 to 27 LEDs. The IP66 Bars are designed as a flexible solution to highlight a large variety of outdoor building structures.
The Bars are equipped with the RDM function and can be controlled by sections (Bar 9 – 1 section, Bar 18 – 2 sections, Bar 27 – 3 sections). Every section requires 1 filter (example: 1 filter for Bar 9, 2 filters for Bar 18 and 3 filters for Bar 27).

SPO & SQA 270 use the latest 4 in 1 LED technology to get the highest color saturation and exceptional color mixing. The different filters provide several beam angles for the best expected effect. Thanks to the RDM function, the projectors instantly give feedback about their working condition, which simplifies the set-up operations.

Decorations delivered with power cable and attachment kits, without bulb or satilight. All the catalogue products are made using LEDs.

Eco-tax:
In light of the development of European directives and interpretations, some of our products, which are not subject to this tax, may be added to this during the year. The scale can also evolve during the year. The eco-tax cannot be discounted or reduced.

Tax on all light bulbs:
The tax is applicable to both professionals and individual customers. For light bulbs, Leblanc illuminations is affiliated with Recylum.
Tax on other electrical products :
The tax is applicable to people who resell to individual customers as well as professionals. The tax is not applicable to professionals on the condition that they deal with the end-of life recycling of products. In this case, the professionals involved must send a confirmation letter to Leblanc illuminations. Leblanc illuminations is affiliated with Ecologic for electrical products.
